EEBDA 2022

2022 IEEE International Conference on
Electrical Engineering, Big Data and Algorithms

Feb. 25th~27th, 2022, at Changchun, China

2022 IEEE International Conference on Electrical Engineering, Big Data and Algorithms (EEBDA 2022) is a prestigious event organized by Wuhan University with a motivation to provide an excellent international platform for the academicians, researchers, engineers, industrial participants and budding students around the world to share their research findings with the global experts. EEBDA 2022 will be held in Changchun, China during February 25th~27th, 2022.

EEBDA 2022 is designed to foster dialogue amongst professionals from the industry, the public sector, and the research community from all over the world. Join us in Changchun and be part of the important and exciting EEBDA conference. Whether you are there to listen, to present, to have your questions answered, or are there to contribute to the discussions and dialog with some of the world's leading experts, you will find the event meaningful and memorable!

▷ CALL FOR PAPERS

EEBDA 2022 is seeking original papers for presentation at this event. Researchers and participants from academia, industry, and government organizations are invited to submit papers, and the conference topics and applications include but are not limited to:

ELECTRICAL ENGINEERING

- electronics and electrical engineering
- circuits, devices and systems
- measuring technology and instruments
- computer science applications

ELECTRIC VEHICLE

- electric vehicle technologies
- control and robotics
- nanoelectromechanical system
- power electronics and power drives

RENEWABLE ENERGY

- renewable energy systems
- materials for electrotechnics
- distributed generation, fuel cells
- photonics and optoelectronics

To see all the subtopics, please refer to http://www.eebda.org/Topics.html.

⚠ NOTICE OF SUBMISSION

– Papers submitted should be written in English and follow the format requirements.
– No more than 10 pages under Template format, even though additional fees have been charged.
– Please submit your full paper via Electronic Submission System. Or submit your full paper to iceebda@126.com
– Submission deadline: November 30th, 2021.
